

Bournemouth University

Student Charter

BU believes that students and staff form a single academic community, and that by working together we can achieve our goals. We should all strive to perform to the best of our ability, have reasonable expectations of others, and are committed to working together professionally and respectfully. This Student Charter has been developed by BU, together with your Students' Union SUBU, and it clarifies our community culture and the main principles we subscribe to. It is separate to the Student Agreement www.bournemouth.ac.uk/important-information and it is not legally binding.

Working together, you can expect our commitment to you to provide:

- An organised, engaging and stimulating learning environment
- Resources to support learning and future employability
- Professional staff who want you to realise your potential to succeed, and who will work to help you achieve the most from the programme of study
- Advice from tutors in a timely, approachable and constructive manner
- Work which has been assessed fairly and attentively
- Timely feedback which will include constructive comments as to how you can enhance work in the future
- Staff who interact with you professionally, courteously and respectfully
- A wide range of support and opportunities beyond your individual course from BU and SUBU.

Working together we expect your commitment to be assessed fairly and honestly
